## Conditional statements

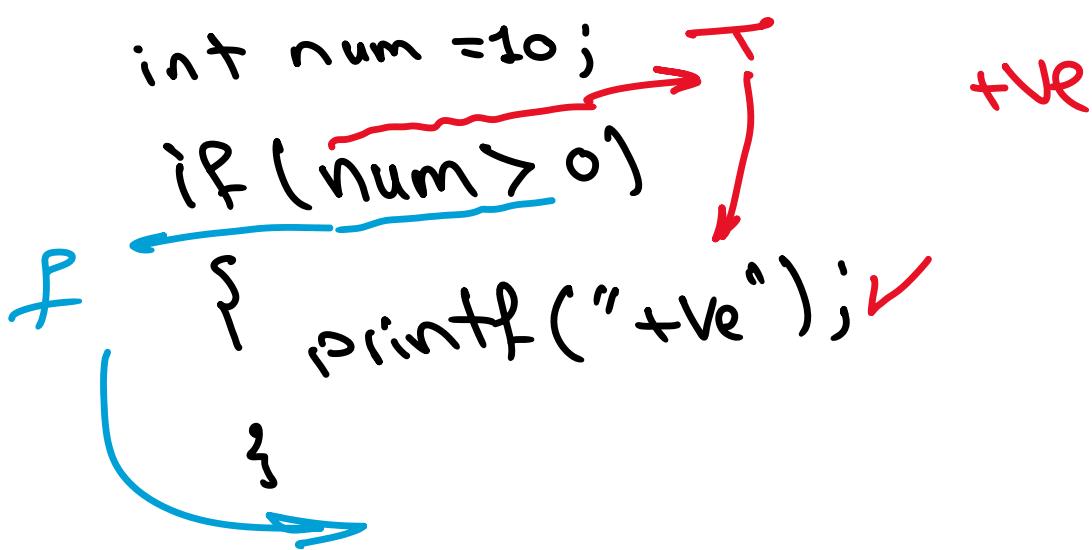

IF

Flowchart:

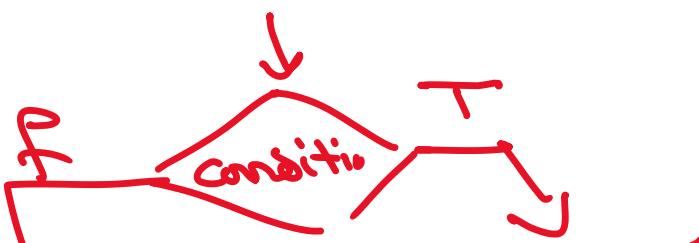

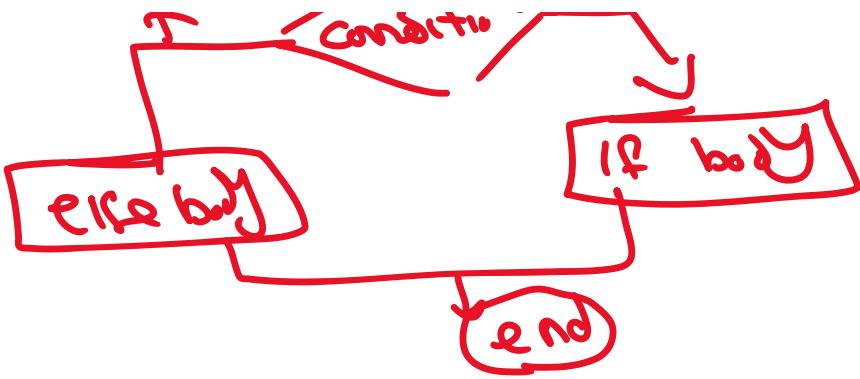

Example :

if else

flowchart:

Syntax:

```

IF ( condition )
{
    // IF body ( True )
}
else
{
    // else body ( False )
}

```

example:

```

int num = -10;
IF ( num > 0 )
{
    printf(" +ve ");
}
else
{
    printf(" -ve ");
}

```

✓

```
else  
{ printf("-ve"); } //
```

if ( $x == 0$ )  
{ printf('zero'); }  
compiler error  
 $x = 10;$   
else  
{ printf("not zero"); }

$x = -10$

if ( $x >= 0$ ) → Nested if  
body (R)  
if ( $x == 0$ )  
printf("zero"); → if body  
else printf("+ve"); → else body  
else printf("-ve");
